...Loyalty...

If you work for a man, in Heaven's name WORK FOR HIM. If he pays you wages that supply your bread and butter, work for him; speak well of him; stand by him and stand by the institution he represents. If put to a pinch, AN OUNCE OF LOYALTY is worth a pound of cleverness. If you must vilify, condemn and eternally disparage, why, resign your position, and when you are outside condemn to your heart's content. But as long as you are a part of the institution do not condemn it. If you do, you are loosening the tendrils that hold you to the institution, and the first high wind that comes along you will be uprooted and blown away, and probably you will never know why.

...Preface....

NEWPORT NEWS, 1910

NEWPORT NEWS is one of the best located cities in the South, fronting on Hampton Roads, one of the finest harbors on the Atlantic Coast. It is situated at the confluence of the James River with Hampton Roads. It stands on a bluff, and as far as the eye can see are magnificent views of the James, Elizabeth and Nansemond Rivers, flowing into the grand inland sea which forms one of the safest and largest harbors in the world.

Newport News as a city may not be considered such an important factor with respect to its size or population, yet it has rapidly gained recognition, both by our government and by the great commercial centers of the world, as one of the greatest and most promising ports of the United States. In recognizing this, one can but marvel at the rapid strides Newport News has made in taking advantage of facilities for the shipment of bituminous coal to all parts of the world.

The anchorage ground of the port of Newport News is so vast that an almost unlimited number of vessels may anchor without interfering with convenient passage of other commercial boats along our water front, and the depth of water alongside the piers is sufficient for docking and loading the largest vessels afloat.

The population of Newport News is 35,000, an increase of about 16,000 since 1900; fifteen thousand more is added by Hampton, Phoebus, Old Point, Soldiers' Home and the Normal School which cities are connected with Newport News by a fifteen minutes street car service, and to-day Newport News is a modern up-to-date city, constantly increasing in population, industries, wealth and all that goes to make municipal success.

The city has a first class system of water works, practically all of the streets are properly piped, the works furnishing an abundance of pure drinking water, with a pressure of between fifty and sixty pounds, the lines extending to Hampton, Phoebus and Old Point. This water, by a chemical analysis, is pronounced to be absolutely pure.

A complete and efficient fire department, with modern equipment, sufficient engine houses, and companies in each section of the city, has proved itself to the extent that in the past five years there have been no fires worthy of mention. In addition to this we have a first class electric lighting system, together with gas for fuel and light, and statistics show that the electricity furnished for manufacturing and industrial plants is at a rate as cheap as any other city in the South.

A good sewer system extends to all parts of the city adequate for any and all conditions. In 1908 the continuance of civic improve-

ments was made by the issuance of \$100,000 worth of bonds by the city government for street paving, and to-day we have eight miles of splendidly paved streets.

The public school system in Newport News is second to none in the State, affording ample accommodations for the needs of the city, and an up-to-date kindergarten operated at the expense of the Newport News Shipbuilding and Drydock Company, is free to the little children of the employees of the plant. There is also located here the Virginia State School for the Deaf and Blind (colored), which was recently secured by the Chamber of Commerce and which has lately begun its work.

The equipment of the city's public schools is an infallible index to her position in the world of progress. This being an undoubted fact, Newport News most assuredly stands in the first ranks. When the city was incorporated in 1896, none of the present school buildings had been built. In 1898 the High School, Twenty-eight Street School and Colored School were erected. Three years later two other handsome and commodious school houses were built, one in the North End, and the other in East End. Newport News thus occupies a unique position among the cities of the State in that all of her school buildings are new and up-to-date, the oldest having been built only ten years ago. For the past few years the schools in the East End section of the city have been over crowded, the School Board providing for the overflow by renting two buildings at Roanoke and Jefferson Avenues, respectively.

The question of erecting a new school building or buildings has been considered for the past year or more, and with in the month a contract for the erection of a new building at an expense of \$10,000 has been awarded which proves that Newport News copes with all conditions, educational and otherwise. A \$60,000. High School is now under construction.

The total value of the taxable property in the city of Newport News is about \$12,000,000. and the tax rate on real estate in the city is \$1.60 per \$100., and that in the county adjoining the city is \$1.15 per \$100., and when the facilities and protection as well as the adaptability of the water front for shipping, commerce and industries are considered, this rate when compared with that of other Southern cities, is found to be extremely low.

The annual industrial output is about \$10,000,000. in value.

The estimated capital invested is about \$24,000,000. the number of hands employed is about 10,000, and the estimated annual wages paid is about \$5,000,000.

The shipping facilities to be found at Newport News are unexcelled. The lay of land in this city is especially adapted for the construction of docks and piers, being from twelve to fifteen feet above sea level, while on the opposite side of the water, land will be found to be from four to five feet only, and from the shore line of Newport News to deep water is only thirty feet, while on the other side from shore line to deep water is 2,640 feet. In conjunction with this the anchorage to be found at Newport News is a space of water running from the shore for seven-eighths of a mile wide, and five miles long, or room

enough without dredging, in which can be anchored the combined navies of the world, without in any way, interfering with the shipping. The harbor of Newport News is a protection to ships, while other ports on Hampton Roads are open to the wind across a sweep of water from four and one half to twelve miles, which will be appreciated by maritime people.

The real estate values are constantly increasing with bright prospects for a continual ascent in prices, which shows the solid financial basis upon which the city is built.

In its facilities, Hampton Roads and James River offer the best harbor and water way in the United States, with deep water sufficient for any size ship ever built. With protection for the ships it can readily be seen that the exports and imports carried on from this port are enormous.

With the exception of about six weeks of the year the climate of Newport News permits, and is conducive to out door work, these six weeks are divided into a few days at a time, so that at all other times laborers can work in the open at least ten full hours per day, in fact snow seldom falls more than twice a year and then rarely remains on the ground for more than twenty-four hours at a time. A statement which can readily be verified is that roses bloom in the open on Christmas Day, and have been for the past three years. The fact proves that as a residential city, Newport News leads, for there seems no place better situated in the United States; it is far superior to any other city in this section as the elevation of Newport News is high, while neighboring towns are lower.

As for markets for our products, it is only necessary to say that Washington, Baltimore, New York and Boston are conceded our markets, both by rail and water, and with the strenuous efforts we are making to become more closely allied with the South, we are steadily increasing our prestige day by day, and in the very near future, Newport News will be one of the largest shipping centers in the South. Labor as compared with other cities and towns will be found to be very cheap: in fact, for this and other reasons the Government has decided that Newport News is the logical point for Government Distribution.

Newport News is bound to grow; the Chamber of Commerce invites capital, industry, and labor and will help you locate your plant, it will meet conditions necessary to your business and stands ready at any and all times to assist you in every way possible and its experienced man is at your disposal to work day and night to help you and others to succeed.

The day is near at hand when Newport News will come into its own, and, as it should be and shall be, the gate way for all foreign commerce along the Atlantic Coast and the home of capital and industry. Therefore, we extend a friendly hand and assure you that a pleasant greeting is waiting those who are looking for a proper place to establish an industry, or for a delightful place of residence.

Any information which may be desired will be furnished by the Chamber of Commerce upon application.

FRANK R. CARTY,
Secretary.

BEACH ROAD

(29)

JAYLOR'S ROW

Guide to Streets of Newport News

The city is numbered on the decimal plan; that, is, one hundred is allowed each block. For streets running north, numbering begins usually at 20th and 23d streets, the commencing numbers being 2000 and 2000 respectively. West avenue is the main starting point for streets running east, the 100 numbers beginning with that street. The stranger may be better guided by remembering that all streets designated by numbers, such as 24th, 25th, etc., run east with the one exception of Hampton avenue. Those designated by names run north.

STREETS RUNNING NORTH

(Even numbers are on the east side, odd on the west)

Beach Road—south from Kuondike rd along river bank

Chestnut Avenue—north from 20th, eleventh east of West av

Coal Dock Hill—south of 22d nr River rd

Elevator Row—18th nr C & O elevators

Hell's Half Acre—south of C & O track north of 18th

Huntington Avenue—north from 23d, first east of Washington av

Ivy Avenue—north from River to 20th (the principal street of Bloodfield, and is beyond the city limits)

Jefferson Avenue—north from 20th, fifth east of West av

Klondike Road—east from James river south of Pier 10

Lafayette Avenue—(see Huntington avenue)

Lookout Place—north from 20th to Hampton av, twelfth east of West av

Madison Avenue—north from 20th, sixth east of West av

Marshall Avenue—north from 20th, seventh east of West av

Moss' Row—south from 29th, first east of C & O Ry elevators

Oak Avenue—north from 24th, 13th east of West av

Orchard Lane—north from Hampton av to 22d, twelfth east of West av

Orcutt Avenue—north from Hampton av, ninth east of West av

Parrish Avenue—north from 21st, second east of Chestnut av

Passenger Hill—near Chesapeake and Ohio elevator, opposite Chesapeake and Ohio depot

Point Breeze—River rd east of Dawson City

River Road—east from 25th along James River front

Roanoke Avenue—north from 21st, tenth east of West av

Taylor's Row (Bloodfield)—east from 15th to Water, first south of Ivy av

...Loyalty...

If you work for a man, in Heaven's name WORK FOR HIM. If he pays you wages that supply your bread and butter, work for him; speak well of him; stand by him and stand by the institution he represents. If put to a pinch, AN OUNCE OF LOYALTY is worth a pound of cleverness. If you must vilify, condemn and eternally disparage, why, resign your position, and when you are outside condemn to your heart's content. But as long as you are a part of the institution do not condemn it. If you do, you are loosening the tendrils that hold you to the institution, and the first high wind that comes along you will be uprooted and blown away, and probably you will never know why.

OUT-*of*-TOWN WORK SOLICITED

CAN

CANCER

BE

CURED?

IT CAN

WE WANT EVERY man and woman in the United States to know what we are doing. We are curing Cancers, Tumors and Chronic Sores without the use of the knife or X Ray. We are endorsed by the Senate and Legislature of Virginia. Come and see what we have done and are doing; if then you are not satisfied that we do all we claim, we will pay your railroad fare.

WE GUARANTEE OUR CURES

Your most progressive merchants. If it pays them it will pay you. Consult us.

HILL DIRECTORY CO., Publishers

RICHMOND,

VIRGINIA

The Best Fertilizers for Corn

That the yield of corn from the average farm can be greatly increased by intelligent and liberal fertilization has been repeatedly demonstrated. Large crops of good corn result from preparing the land well, using the right kind and quantity of fertilizer, good seed and proper cultivation.

Virginia-Carolina Fertilizers

will greatly "increase your yield per acre" of corn or any other crop. In some cases remarkable results have been obtained.

Mr. C. W. Caruthers of Sumpter County, Fla., writes: "Words cannot express the value of your fertilizer. It is really so far ahead of other companies' goods, that it would not pay anyone to use other brands, were they given free and put in the field. I can prove what I say to be a fact. I made a test on five acres. I used on one half the land your fertilizer and on the other half another company's fertilizer, same grade; the land received the same cultivation every time. *I kept a correct account of the amount of money I got off each half and I got \$300 more from the land on which I used Virginia-Carolina Fertilizer than I did off the other half. I got four times as much corn from the land on which I used your fertilizer.*"

Write today to nearest office of the Virginia-Carolina Chemical Company for a free copy of the new 1909 Farmers' Year-Book or Almanac, full of the most valuable and unprejudiced information for planters and farmers; or ask your fertilizer dealer for a copy.

The Best Fertilizers for Corn

That the yield of corn from the average farm can be greatly increased by intelligent and liberal fertilization has been repeatedly demonstrated. Large crops of good corn result from preparing the land well, using the right kind and quantity of fertilizer, good seed and proper cultivation.

Virginia-Carolina Fertilizers

will greatly "increase your yield per acre" of corn or any other crop. In some cases remarkable results have been obtained.

Mr. C. W. Caruthers of Sumpter County, Fla., writes: "Words cannot express the value of your fertilizer. It is really so far ahead of other companies' goods, that it would not pay anyone to use other brands, were they given free and put in the field. I can prove what I say to be a fact. I made a test on five acres. I used on one half the land your fertilizer and on the other half another company's fertilizer, same grade; the land received the same cultivation every time. *I kept a correct account of the amount of money I got off each half and I got \$300 more from the land on which I used Virginia-Carolina Fertilizer than I did off the other half. I got four times as much corn from the land on which I used your fertilizer.*"

Write today to nearest office of the Virginia-Carolina Chemical Company for a free copy of the new 1909 Farmers' Year-Book or Almanac, full of the most valuable and unprejudiced information for planters and farmers; or ask your fertilizer dealer for a copy.

COPYRIGHT LAW, BEARING ON DIRECTORIES

Sec. 28:

That any person who wilfully and for profit, shall infringe any copyright secured by this act, or shall knowingly and wilfully aid or abet such infringement, shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be punished by imprisonment for not exceeding one year, or by a fine of not less than one hundred dollars, nor more than one thousand dollars, or both in the discretion of the court.

DIRECTORY ADVERTISING BRINGS
SATISFACTORY RESULTS

THE CITY DIRECTORY is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the BUSINESS DIRECTORY form the best BUYER'S GUIDE on earth. A modern up-to-date method of getting what you want.

It's Results That Count

The Advertiser expects them and
spends his money where
he gets them.

In order for an advertising medium to be capable of producing results, it must have "the goods"—not only a large circulation, but being circulated among the **people who buy**. In other words, home circulation.

The working man reads the afternoon paper after he is through with his day's work. He is fast becoming acquainted with the fact that the advertising columns are the most valuable news. He reads and then **buys**. In order to successfully reach that man, the progressive merchant

ADVERTISES IN THE TIMES-HERALD

It covers the entire Peninsula

It has the circulation

It reaches the man who buys

It brings results

It carries the business.

Why can't it carry yours?

DAILY PRESS

(DAILY EXCEPT MONDAY)

Only Morning Paper in the Virginia Peninsula Section

ITS circulation exclusively covers a rich field, the paper going into nearly all of the best and middle-class homes in this territory. Daily Press Advertising produces results. It's paying others--- it will pay you. The Virginia Peninsula field cannot be covered without it.

Full Associated Press Service.
